

You're Guide Power to Grid Systems

DC Peak Power	1.5 kW	2.15 kW	2.58 kW	3.01 kW	4.08 kW	5.16 kW	10.32 kW
Average Daily Power *	6.3 kWh	9 kWh	11 kWh	12.6 kWh	17 kWh	22 kWh	45 kWh
No. of 215w Astronergy Modules	7	10	12	14	19	24	48
Inverter	SMA SB 1700	SMA-SB2000-HF 2kW	SMA-SB3000-HF 3kW	SMA-SB3000-HF 3kW	SMA-4000TL 4kW	SMA-5000TL 4kW	SMA SMC 10000TL
Roof Space Required	12m ²	16 m ²	20	22 m ²	30 m ²	38 m ²	75 m ²
Installed price before rebates*	\$ 8 025.00	\$ 11 495.00	14 990.00	\$ 15 440.00	\$ 20 874.00	\$ 25 521.00	\$ 44 541.00
Number of STC/RECS	93	106	115	124	145	169	275
STC/RECs rebate @\$25 per STC**	\$ 2325.00	\$ 2650.00	\$ 2875.00	\$ 3100.00	\$ 3625.00	\$ 4225.00	\$ 6875.00
Installed price after rebates GST Inc	\$ 5700.00	\$ 8845.00	\$ 12 115.00	\$ 12 340.00	\$ 17 249.00	\$ 21 296.00	\$ 37 666.00

W = watts
 kWh = kilowatt hours
 RECs = renewable energy certificates
 FIT = Feed in Tariff

* System outputs are based on average daily rates for Wagga Wagga. Output figures may vary based on site-specific factors such as roof pitch and orientation, local landscape features and weather conditions. Check your current electricity bills for the daily consumption in kWh to find out about the energy savings each system will make for you.

**prices are based on a standard tin pitched roof installation; \$25 per REC, price, extra cost may include pitched framing, outdoor inverters, travel. For a free no obligation quote and site assessment please phone Solar Wise Wagga on 0419 01 7775

What You Get in Your Home Solar Energy System Package

- Multi -crystalline panels with a 25 year warranty
- SMA Grid connect inverter with a 5 year warranty (optional 10)
- AC and DC circuit breakers
- All cabling
- All signage required by Australian Standards (AS4777)
- Installation and commissioning
- Processing of rebate applications and installation report
- 12 month onsite service warranty

When Quality Counts

Solar Wise Wagga Wagga energy systems include quality, high conversion efficiency multi-crystalline silicon solar cells. These cells incorporate high performance bypass diodes to reduce the power drop caused by shading.

In addition, our modules:

- include high-transmittance, low-iron tempered glass and pass the relevant Australian Standards for hail
- are tested and proven in the Australian environment and pass the relevant Australian and international certifications: IEC 61215, IEC 61730, Class II.

Our solar energy systems also meet rebate guidelines under the Australian Government and the Clean Energy Council. Plus there's a warranty on output for up to 25 years from the time of installation.

The Leading Light in Solar Sales and Service

Call Solar Wise Wagga Wagga today for affordable solar energy systems designed to suit your property and your needs.

Solar Wise Wagga Wagga, 5 Nunckeri St Wagga Wagga NSW 2650

Mounting option (above standard – installed)

DC Peak Power	1.5 kW	2.15 kW	2.58 kW	3.01 kW	4.08 kW	5.16 kW	10.3 kW
Tile roof mount kit	\$ 284.00	\$ 408.00	\$ 430.00	\$ 516.00	\$ 688.00	\$ 980.00	\$ 1 720.00
Flat roof pitched frame	\$ 390.00	\$ 559.00	\$ 650.00	\$ 780.00	\$ 1 040.00	\$ 1341.00	\$ 2 626.00

Solarwise also supply and install ground mount systems and on to clip lock roofs.

All mounting systems are approved by Australian standard and have engineers certificate.

Please feel free to contact Solar Wise Wagga for further options for mounting and we will be glad to help you out.
